"You want to hit home run without going into spring training?"

*Kenkichi Iwasawa*

## Education

---

**University of Oxford (Hertford College)**

October 2021 – May 2024

Studying towards the Bachelor of Arts (BA) in Mathematics.

## Selected Coursework

---

**Complex Analysis**

January 2021 – Present

Roughly following Stein and Shakarchi, Princeton Lectures in Analysis, Book 2.

**Abstract Algebra**

December 2020 – Present

Two friends and I are working through Chapter 0 by Paolo Aluffi (GSM 104).

**Analytic Number Theory**

June 2020 – August 2020

Problem based course taught under Professor Paul Pollock.

## Programs & Experience

---

**Ross Mathematics Program**

2019 – 2020

As a first year, took course in number theory (from ring axioms to reciprocity laws and finite fields, incl. construction & uniqueness, Frobenius endomorphism). As a junior counselor, graded first years' sets and took courses in analytic number theory and equidistribution.

**Wayland High School Math Team Captain**

2017 – 2021

Led team to two first places finishes in Greater Boston Math League (2020, 2021); 0-2 AIME qualifiers annually to 8 in 2020. Wrote and gave lectures and problem sets, ran extra practice sessions.

## Skills

---

$\text{\LaTeX}$ , Python, Javascript
